

## AM Mono Antenna Mainboard

### Energy-efficient pedestal saves on power without sacrificing performance.

AM Mono Antenna-Mainboard EAS anti-theft protection with up to 3.5m (11ft 6in) of coverage between pedestals. The on-board electronics are contained within the base cover of the primary pedestal, eliminating the need for an external controller, and reducing installation and maintenance costs. The audio and visual alarms notify store personnel if protected merchandise passes through the detection zone.

### Retailer Values

- // Consumes up to 40% less power out-of-the-box than previous systems, without sacrificing performance
- // 3.5m (11ft 6in) global detection performance protects critical assets
- // Modern, transparent design compliments any store setting
- // EAS Intelligence option allows delivery of in-store operational information to better manage loss prevention and store operation efforts
- // EAS Intelligence option allows for delivery of in-store metrics to better manage loss prevention and optimize store operations
- // Electronics are located in the primary pedestal to help reduce install and maintenance costs

### Environmental Constraints

#### Ambient Temperature

0°C to 50°C (32°F to 122°F)

#### Relative Humidity

0 to 90%, non-condensing

### Product Code

**F01000204**

### Specifications

**Height** ..... 157.5cm (62in)

**Width** ..... 40.6cm (16in)

**Thickness/Depth**..... 9.7cm (3.8in)

**Weight** ..... 20kg (44.1lbs)

### Electrical

#### Transmitter

Outputs..... 1 port  
(two antennas, multiplexed)

Operating Frequency ..... 58kHz (±200Hz)

Transmit Burst Duration..... 1.6ms

Transmit Current (nominal) ..... 37A peak
