

## AM Mono Antenna-Mainboard

AM Mono Antenna combine simplicity with reliable performance, creating an affordable AM EAS anti-theft solution while providing a visual deterrent against theft.

The electronics are contained within the base of the primary pedestal, eliminating the need for an external controller, reducing installation and maintenance costs. The coverage area is up to 9 ft

Visual&audible alarms this pedestal will notify store personnel if protected merchandise passes through the detection zone.

### Retailer Values

- // Electronics are located in the primary pedestal to help reduce install and maintenance costs
- // Provides shoplifting coverage up to 9 ft between pedestals to protect critical assets
- // High-impact ABS construction provides long-term durability for virtually any retail setting
- // Integrated audible and visual indicators immediately notify store associates of alarm events

### Product Compatibility

Ranger Antenna  
Satellite Receivers  
Amorphous Core Antenna

### Operating Temperature

0°C to 50°C (32°F to 122°F)

### Relative Humidity

0 to 90% non-condensing

### Product Code

**F01000201**

### Specifications

**Height** ..... 154.94cm (61in)  
**Width** ..... 41.91cm (16.5in)  
**Thickness/Depth** .....13.1cm (5.2in)  
**Weight** ..... 11.4kg (25.13lb)

### Electrical

#### Transmitter

Operating Frequency ..... 58kHz (+200Hz)

#### Burst Repetition Rate

Based on 50Hz ac..... 37.5Hz/75Hz

Based on 60Hz ac..... 45Hz/90Hz

Transmit Coil Resistance.....0.11ohms  
 (±2%)
