

AM Mono Antenna Mainboard

Combines simplicity and reliability for an attractive, affordable anti-theft solution.

This Acrylic Pedestal combines simplicity with reliable performance to deliver an affordable, attractive anti-shoplifting solution. Constructed from high-grade, durable acrylic, this pedestal provides a transparent, sophisticated look at store entrances. The system supports pedestal spacing up to 3m (9ft 10in)

The alarm notify store personnel if protected merchandise passes through the detecton zone. Each pedestal fully illuminates with a light for visual notification and deterrence during an alarm event.
